## ECE 376: Handout \#2

Assembler Instructions

Assume registers $\mathrm{W}, \mathrm{X}$, and Y are have initial values of 5, 6, 7 respectively. Determine the contents of each register after each assembler command.

|  | W | X | Y |
| :--- | :--- | :--- | :--- |
| ; Start | 5 | 6 | 7 |
| movlw 13 |  |  |  |
| movf X,W |  |  |  |
| movwf Y |  |  |  |
| addwf Y,F |  |  |  |
| subwf X,W |  |  |  |
| btg X,0 |  |  |  |
| clrf Y |  |  |  |
| incf X,F |  |  |  |
| incf Y,W |  |  |  |
| andlw 0x03 |  |  |  |

Solution

|  | W | X | Y |
| :---: | :---: | :---: | :---: |
| ; Start | 5 | 6 | 7 |
| moviw 13 <br> move 13 to W | 13 | 6 | 7 |
| $\begin{gathered} \text { movf X,W } \\ \text { move } X \text { to } W \text { (read) } \end{gathered}$ | 6 | 6 | 7 |
| movwf $Y$ move $W$ to $Y$ (write) | 6 | 6 | 6 |
| $\begin{gathered} \hline \text { addwf Y,F } \\ Y=Y+W \end{gathered}$ | 6 | 6 | 12 |
| $\begin{gathered} \text { subwf } \quad \mathrm{X}, \mathrm{~W} \\ W=X-W \end{gathered}$ | 0 | 6 | 12 |
|  | 0 | 7 | 12 |
| $\begin{gathered} \text { clrf } Y \\ \text { clear } Y \end{gathered}$ | 0 | 7 | 0 |
| incf X,F <br> incrment $X$, result goes in $X$ | 0 | 8 | 0 |
| incf Y,W <br> increment y, result goes in $Y$ | 1 | 8 | 0 |
| andwf X,F <br> and $W$ and $X$, result goes in <br> X | 1 | 0 | 0 |
