

# ECE 311 - Homework #6

## Balanced 3-Phase Circuits

For each problem, let

- $V_a = 120\angle 0^\circ$
- $V_b = 120\angle -120^\circ$
- $V_c = 120\angle -240^\circ$

1) Find  $V_1$ ,  $V_2$ ,  $V_3$ , and the power delivered to each resistor

Problem 1: Y-Delta Connection

2) Find the power delivered to each resistor

Y-Delta Connection
