

# ECE 341 - Homework #6

LaPlace Transforms, Continuous Probability Density Functions. Due May 30th

- 1) Determine the scalar so that the above function is a valid pdf (i.e. the total area is 1.000)
- 2) Determine the corresponding cdf
- 3) Using Matlab, find 20 random values of  $x$  for the above pdf
- 4) Find the moment generating function for  $p(x)$
